**STATEMENT OF WORK  
FOR THE PROCUREMENT OF RADIOLOGICAL ISOTOPES  
AT EXPLOSIVE ORDNANCE DISPOSAL TRAINING &  
EVALUATION UNIT TWO (EOD TEU 2) AT JOINT  
EXPEDITIONARY BASE LITTLE CREEK-FORT STORY,  
VIRGINIA BEACH, VA**

**A. SCOPE**

Explosive Ordnance Disposal Training and Evaluation Unit Two (EODTEU 2) Nuclear Hazards Division (N71) requires radiological materials for use in providing realistic training for deploying Explosive Ordnance Disposal teams in radiological search, identification, and handling procedures. Additionally, these sources will support the Nuclear Hazards Team Trainer Course, CIN S-431-9000. Training will also be provided to other DoD activities and federal, state, and local law enforcement agencies as required or directed. The purchase of the radiological sources listed are for the exact radiological sources listed on the Naval Radiation Materials Permit NMRP 45-43505-B1NP Amendment No 3CC held by EODTEU TWO. Federal law (10 CFR) and the NAVSEA RAD-010 instruction require the sources purchased to be the exact sources listed on the commands permit. Deviations from the permit are not authorized and are a violation of Federal law.

**B. APPLICABLE Publications and Documents**

NMRP 45-43505-B1NP Amendment No 3CC, NAVSEA RAD-010, Federal law (10 CFR)

**C. GOVERNMENT FURNISHED MATERIAL/SERVICES**

**D. CONTRACTOR FURNISHED MATERIAL:**

**E. DELIVERABLES**

1. Two (2) 25mCi, CO60 Sources, Model number CO030110025M
2. Two (2) 5mCi, CO60 Sources, Model number CO03011/50005M
3. Two (2) 100mCi, CS137 Sources, Model number CS730110100M
4. Two (2) 30mCi, CS137 Sources, Model number CS73011/50030M
5. Two (2) 10mCi, BA133 Sources, Model number BA330110010M
6. Two (2) 400uCi, BA133 Sources, Model number BA330110400U
7. Two (2) 100mCi, SE75 Sources, Model number SE536160100M
8. Three (3) 500uCi, CA252 Sources, Model number CF230140500U
9. One (1) 1Ci, AM241 Sources, Model number AM1N030001C

**F. SCHEDULE:**

1. 8-10 Weeks from Receipt of Order
